/...

followed by savage attacks perpetrated by the Viet-Cong - North Viet-Namese aggressors against a neutral and peace-loving country to which they have no right and with which they have no ethnic affinity, in flagrant violation of the United Nations Charter, international law and the 1954 Geneva Agreements. These criminal attacks reveal clearly the annexationist aims of the Viet-Cong - North Viet-Namese communist imperialists and represent a dangerous threat to peace and security not only in the Khmer Republic but throughout the region of South-East Asia.

The Government of the Khmer Republic holds the Government of the Democratic Republic of Viet-Nam and the so-called Provisional Revolutionary Government of South Viet-Nam fully responsible for all the extremely grave consequences resulting from this situation and reserves the right to take the necessary action to defend the independence, neutrality, sovereignty and territorial integrity of the country.

I should be grateful if you would have the text of this communication circulated as a Security Council document.
